

# YOUR UNIQUE CULTURAL LENS

## QUESTIONS AND A HINT TO FACILITATE YOUR EXPLORATION OF LAYER 5 — EDUCATIONAL:

- What degrees, certifications and workshops have you taken and either earned or not?
- What insights have you derived from your training experiences and efforts?
- What doors do you think these qualifications open for you?
- What doors do you think they may potentially close for you?
- How do you think others perceive you just by knowing your qualifications or lack thereof?
- What lessons do these educational reflections evoke about who you are?
- How do you plan to use them to the benefit of others?

**HINT:** The invitation here is to go beyond simply listing your degrees; you are not writing your resume. Instead, chronologically explore how different levels of education, and their consequences, have altered the way you *see* the world and interact with others throughout your life. Also reflect on how the way others perceive you evolved with your changing educational levels.
